

## **Impressive Voice and Acoustic Guitar**

As a singer / songwriter, Jens Stoeter presents himself in his songs, with sharp-tongued lyrics and pictorial and sometimes humorous portrayals of sometimes even experienced or apparently self-invented circumstances, which, by their nature, could be quite realistic or perhaps even are. Sometimes German, sometimes English texts are combined with stylistic elements from pop, rock or even blues. With the songs of Jens Stöter it is worth to listen to the lyrics.

## Versatile and varied

Since 1999, Jens Stoeter has regularly appeared on various German stages. Whether for city events, gala dinners, Oktoberfest or club events, company events, weddings or birthdays. The occasions are varied and the passion of Jens clearly:

**Enjoy and have fun with the music  
and give this feeling to the listeners!**

**Solo** unplugged, Jens can be heard in restaurants, pubs and bars, as well as at city festivals, family celebrations and also in readings and book-presentations. The event "Eninschließen & Genießen", which has been taking place since 2014 at the Advent season, of the small Vogtlandbuchhandlung Reichenbach (Saxony - Germany) has particular significance. It was the trigger for the CD "Weihnachten, ich komme!".

today, With Jens

With his Band **Triob XL** the focus is on danceable song covers from the 1960 to singing from the gentle ballades in the singing duo to the powerful Rock'n'Roll, he presents a broad repertoire.

**Ludwig and Co**, an unplugged project, originally conceived for bars and pubs, has developed over the past few years with a mix of classic cover songs and own songs into a band which is suitable to bigger stages as well. The essential feature is the extensive percussion that has been used since 1999, bringing a unique kind of music style and being part of the setup since the beginning instead of a drumset.

With supporting musicians and above all in the **duo with Anthony Scheffler**, Jens creates a musical environment to present the regular song covers as a new interpretation.

As **Marc van Gale feat. Jens S.**, Jens shows his creativity in a completely different genre - the trance. With the DJ Marc van

Gale tracks with international

appeal arise. Jens mainly delivers guitar and acoustic guitar riffs, solos, or vocals for the songs, but sometimes also plays on the stage to perform the guitar and vocal parts live.

## Biography

- with 8 years classical guitar
- with 13 years electric guitar lessons with Rolf Bussalb (tour guitarist by Nigel Kennedy)
